

Protect Your Landscape-Protect Your Family!

**AllGreen has a Treatment Program to fit your lifestyle.*

Mosquito & Tick Control-Dual Protection Program

***Full Season – 5 combo / dual treatments \$495 Total for season
or
Single combo Treatment \$129***

Regular or Organic treatments at the same price

The mosquito and tick treatments are applied at the same time saving you money and creating a better overall result.

The common deer tick can carry **Lyme** disease. **West Nile Virus** and **EEE** are commonly spread throughout New England by the common mosquito. Our treatments will help to minimize the mosquito & tick populations in your landscape. Season long control helps to limit the chance of infestations and the health issues they may cause.

Protect your family and pets with a regular treatment program.

We provide a barrier for mosquitoes and ticks on your property every few weeks. We can also schedule a treatment before any important outdoor event
