

“The Natural Choice”

Protect Your Landscape-Protect Your Family!

“An ounce of Prevention is worth a pound of cure”

AllGreen has a Treatment Program to fit your lifestyle

Mosquito & Tick Control-Dual Protection Program

\$450 Full Season – (10 treatments) combo / dual treatments

(winter 2019 pricing – subject to change in spring 2019)

\$250 (5 treatments) combo / dual treatments

(winter 2019 pricing – subject to change in spring 2019)

\$99 Single/Event Treatment *(winter 2019 pricing – subject to change in spring 2019)*

(Regular or Organic treatments at the same price)

The mosquito and tick treatments are applied at the same time saving you money and creating a better overall result.

The common deer tick can carry **Lyme** disease. **West Nile Virus** and **EEE** are commonly spread throughout New England by the common mosquito. Our treatments will help to minimize the mosquito & tick populations in your landscape. Season long control helps to limit the chance of infestations and the health issues they may cause.

Protect your family and pets with a regular treatment program.

We provide a barrier for mosquitoes and ticks on your property every few weeks. We can also schedule a treatment before any important outdoor event.

\$129 Perimeter Ant

Ant treatment around foundation/sill
